

ENVODOSE SANITISER FOODSAFE – 06045

Ideal solution for sanitising surfaces food preparation equipment.

- ❖ Phosphate free
- ❖ Bactericidal cleaner to BSEN 1276 standard

USES:

Completely soluble sachet and powder providing accurately dosed solution for cleaning and sanitising food preparation equipment and contact surfaces.

Bactericidal cleaner to BS EN 1276 standard at 0.45% concentration with a 5 minute contact time.

DIRECTIONS:

Wearing dry gloves, add one sachet (unopened) to 750ml of preferably warm water in a trigger spray. Secure top and shake bottle vigorously. Attach the enclosed small label to the trigger spray. The whole sachet will dissolve.

Remove gross soiling. Spray directly onto surfaces and equipment to be cleaned. Allow five minute contact time. Rinse well with clean water.

TECHNICAL SPECIFICATION:

Appearance	Powder or dust
Colour	Orange
Odour	No characteristic odour
Solubility	Water soluble

Safety: Keep out of the reach of children.

Risk of serious damage to eyes. Wear suitable gloves, protective clothing and eye/face protection. Do not breathe spray/vapour. Very toxic to aquatic organisms. Avoid release to the environment.

In case of eye contact, wash immediately with plenty of water and seek medical advice. If swallowed seek medical advice immediately and show container or label. For skin contact, wash immediately with plenty of water.

This material and its container must be disposed of as hazardous waste.

Do not reuse empty packaging.
