

ENVOMATIC DISHWASH DETERGENT HARD WATER – 0957

A highly alkaline, heavy duty machine detergent comprising a blend of organic sequestering agents and inhibitors to provide good soil suspension and dispersion.

- ❖ Excellent tannin control

USES:

For use in most types of enclosed cabinet dishwashers. Designed to be automatically dispensed by electronic control pumps. Specially formulated for hard water. Offers excellent stain removal and economy in use.

DIRECTIONS:

Remove all food scraps from dishes before racking. Use at a dilution rate of 2 to 4 mls per litre of water, depending on the level of soiling.

DO NOT USE ON ALUMINIUM, LEAD CRYSTAL OR HAND PAINTED CHINA.
