

ENVOMATIC DISHWASH DETERGENT SOFT WATER – 0963

A concentrated dishwashing detergent which removes difficult soils such as starch, protein and tannin.

- ❖ Provides excellent economy in soft and medium hard water

USES:

For use in most types of enclosed cabinet dishwashers. Designed to be automatically dispensed by electronic control pumps. Specially formulated for soft water. Offers excellent stain removal and economy in use.

DIRECTIONS:

Remove all food scraps from dishes before racking. Normally a concentration of 0.17 to 0.33% (1700 to 3300 ppm) is used, depending on the level of soiling and water hardness. The temperature of the wash cycle should be at least 60C. Results are enhanced by using Envomatic Rinse Aid in the final rinse.

DO NOT USE ON ALUMINIUM, LEAD CRYSTAL OR HAND PAINTED CHINA.

TECHNICAL SPECIFICATION:

Appearance	Clear, colourless liquid
Odour	No characteristic odour
Density/specific gravity	1.145 kg/ltr (g/ml)
pH conc solution	13.5
