

TECHNICAL DATA SHEET

DETERGENT DEFOAMER - 0903

A specially formulated additive to control detergent foam.

- ❖ Prevents foam clogging pumps and pipelines
- ❖ Prevents pumps overheating
- ❖ Reduces unsightly foam in effluent treatment tanks
- ❖ A must for carpet hot water extraction machine recovery tanks
- ❖ Prevents accumulation of foam in wet pick up tanks

USES:

To prevent and control detergent foam in all applications.

DIRECTIONS:

Detergent solution recovery tanks:
Add 50 – 100ml of Detergent Defoamer to recovery tank before commencing suction operation.

Pumping systems:

Add Detergent Defoamer as required to prevent foam build up in pumps and pipelines.

Effluent:

Drip feed into effluent drain to control foam level.

SHAKE BEFORE USE

TECHNICAL SPECIFICATION:

Composition A blend of mineral and silicone oils, emulsifying agents, stabilisers and preservatives in an emulsion form.

Appearance Opaque emulsion

Colour White

Density 1,000

pH 7.5

Fragrance Negligible

Storage 2 years stored in unopened containers in ambient temperatures. Protect from freezing.

Safety: Keep out of the reach of children.

If swallowed **DO NOT INDUCE VOMITING!** Rinse mouth thoroughly drink plenty of water. Get medical attention.

If in contact with skin rinse with water.

Promptly wash eyes with plenty of water whilst lifting the eyelids. Seek Medical attention if any discomfort continues.
