

TECHNICAL DATA SHEET

ENVOMATIC NON-BIO LAUNDRY DETERGENT – 0942

A highly active non-biological laundry liquid.

- ❖ Excellent stain removal
- ❖ Gentle on sensitive skin

USES:

Designed to be automatically dispensed by electronic control pumps. A highly active non-biological laundry liquid giving excellent stain removal without bio-enzymes. Gentle on sensitive skin. Very economical in use.

DIRECTIONS:

For normal wash use 10 to 20 mls of Laundry Detergent to 1 kg of dry weight washload, although rate of use depends on water hardness and level of soiling.

Best results are achieved at 60C on mainwash and 85C on high temperature wash.

TECHNICAL SPECIFICATION:

Appearance	Green liquid
Odour	Perfume
Relative density	ca 1.048 g/ml
pH conc solution	6.0
Water solubility	High

Stable under normal conditions.

Safety: Keep out of the reach of children.

Observe common sense precautions when handling.

If swallowed seek immediate medical advice immediately, showing this label.

In case of contact with eyes rinse immediately with plenty of cold water and seek medical advice if irritation persists.

After contact with skin, wash immediately with plenty of water.
